A Ragamuffin Christmas Daliessio Craig 2012-11 What if you had been there on the night that Jesus was born? What if you could have held the infant Son of God, when He was only a few minutes old? How would it feel to have God Himself in your arms, vulnerable, approachable, and unassuming? In "A Ragamuffin Christmas" Craig Daliessio provides just that view of the Nativity. Far from the usual retelling of a baby, some shepherds, and the Virgin Mary; this is the story of criminals, broken hearted moms, scandalous characters, and legendary Saints, each granted their own visit with the newborn King of Kings. The people and images are unmistakable...and the result of each interaction is life changing. This is the Christmas story as it's never been told before.

Garden Portraits Larry Lederman 2020-10-13 A photographic portrait of 16 private gardens in New York and Connecticut through the seasons, weathers, and times of day. For his third book of landscape photographs with Monacelli, following Magnificent Trees of the New York Botanical Garden and The Rockefeller Family Gardens, Larry Lederman has selected 16 private gardens in New York State and Connecticut and studied them in depth, presenting views through the seasons and weathers to capture their essential spirit. As Gregory Long, President Emeritus of the New York Botanical Garden, observes: "After selecting the gardens, Lederman sets out to learn and understand them. He visits in all seasons, in all weather, at many times of day, in many light conditions. He wants to analyze their design and study their character. He wants to know their plants and see their environmental conditions and visual elements from many points of view. He wanders. He walks the paths, forward and backward, and stops frequently so that his camera can memorize views and details. As a result of this time spent and such intense scrutiny, he sometimes discovers aspects of a place that the residents themselves have never seen or fully appreciated. I think the owners of the gardens in this book will see vistas, patterns, designs on the land they did not know they possess. They will love their even gardens more, and their commitments will grow."

The Shikoku Pilgrimage John Lander 2021-09-29 - Evocative photographs of one of the world's most famous pilgrimages - All 88 temples illustrated and discussed - Includes accounts by former pilgrims The Shikoku Pilgrimage on the island of the same name is one of the few circular pilgrimages in the world. At 1,200 kilometers in length, the trail includes 88 temples and passes through diverse countryside such as idyllic bamboo groves, deserted beaches and ordinary Japanese neighborhoods. There is a long tradition of pilgrimage in Japan, dating back at least to the time of the renowned monk, poet and philosopher Kobo Daishi (774-825) who is particularly associated with this trail. John Lander, long-time resident of Japan, author and photographer, has visited and recorded every temple in evocative images, as well as providing fascinating details about the origin of the trail and what the pilgrimage means to the thousands who undertake it every year. The pilgrimage is undertaken for many reasons - to have a time of reflection away from everyday life, as a spiritual journey or as a healing period after a traumatic life experience. Along the way, pilgrims will encounter ordinary Japanese people and learn to understand the custom of o-settai, or charitable giving.

The Paper Garden Molly Peacock 2011-03-29 Mary Delany was seventy-two years old when she noticed a petal drop from a geranium. In a flash of inspiration, she picked up her scissors and cut out a paper replica of the petal, inventing the art of collage. It was the summer of 1772, in England. During the next ten years she completed nearly a thousand cut-paper botanicals (which she called mosaicks) so accurate that botanists still refer to them. Poet-biographer Molly Peacock uses close-ups of these brilliant collages in *The Paper Garden* to track the extraordinary life of Delany, friend of Swift, Handel, Hogarth, and even Queen Charlotte and King George III. How did this remarkable role model for late blooming manage it? After a disastrous teenage marriage to a drunken sixty-one-year-old squire, she took control of her own life, pursuing creative projects, spurning suitors, and gaining friends. At forty-three, she married Jonathan Swift's friend Dr. Patrick Delany, and lived in Ireland in a true expression of midlife love. But after twenty-five years and a terrible lawsuit, her husband died. Sent into a netherland of mourning, Mrs. Delany was rescued by her friend, the fabulously wealthy Duchess of Portland. The Duchess introduced Delany to the botanical adventurers of the day and a bonanza of exotic plants from Captain Cook's voyage, which became the inspiration for her art. Peacock herself first saw Mrs. Delany's work more than twenty years before she wrote *The Paper Garden*, but "like a book you know is too old for you," she put the thought of the old woman away. She went on to marry and cherish the happiness of her own midlife, in a parallel to Mrs. Delany, and by chance rediscovered the mosaicks decades later. This encounter confronted the poet with her own aging and gave her-and her readers-a blueprint for late-life flexibility, creativity, and change.

We Made a Garden Margery Fish 2011-12-19 First published in 1956, *We Made a Garden* is the story of how Margery Fish, the leading gardener of the 1960s, and her husband Walter transformed an acre of wilderness into a stunning cottage garden, still open to the public at East Lambrook Manor, Somerset, England. This is now one of the most important books on gardening ever written. A beautiful and timeless book on creating a garden. Margery Fish turned to gardening when she was in her mid-forties and went on to develop the whole concept of a cottage garden. She had a love of flowers coupled with a passion for nature and made an intensive research into the traditionally grown plants with which cottage gardens in Britain were once so densely planted. In this classic work, she recounts the trials and tribulations, successes and failures, of her venture with ease and humour. Topics covered are colourful and diverse, ranging from the most suitable hyssop for the terraced garden through composting, hedges, making paths to the best time to lift and replant tulip bulbs. Her good sense, practical knowledge and imaginative ideas will encourage and inspire gardeners everywhere.

Sovereignty and the Sacred Robert A. Yelle 2018-10-26 Sovereignty and the Sacred challenges contemporary models of polity and economy through a two-step engagement with the history of religions. Beginning with the recognition of the convergence in the history of European political theology between the sacred and the sovereign as creating "states of exception"--that is, moments of rupture in the normative order that, by transcending this order, are capable of re-founding or remaking it--Robert A. Yelle identifies our secular, capitalist system as an attempt to exclude such moments by subordinating them to the calculability of laws and markets. The second step marshals evidence from history and anthropology that helps us to recognize the contribution of such states of exception to ethical life, as a means of release from the legal or economic order. Yelle draws on evidence from the Hebrew Bible to English deism, and from the Aztecs to ancient India, to develop a theory of polity that finds a place and a purpose for those aspects of religion that are often marginalized and dismissed as irrational by Enlightenment liberalism and utilitarianism. Developing this close analogy between two elemental domains of society, Sovereignty and the Sacred offers a new theory of religion while suggesting alternative ways of organizing our political and economic life. By rethinking the transcendent foundations and liberating potential of both religion and politics, Yelle points to more hopeful and ethical modes of collective life based on egalitarianism and popular sovereignty. Deliberately countering the narrowness of currently dominant economic, political, and legal theories, he demonstrates the potential of a revived history of religions to contribute to a rethinking of the foundations of our political and social order.

Floriography is a full-color guide to the historical uses and secret meanings behind an impressive array of flowers and herbs. The book explores the coded significances associated with various blooms, from flowers for a lover to flowers for an enemy. Mysterious and playful, the language of flowers has roots in everything from the characteristics of the plant to its presence in folklore and history. Researched and illustrated by popular artist Jessica Roux, this book makes a stunning display piece, conversation-starter, or thoughtful gift.

Junya Ishigami Amira Gad 2019-10-25 Ishigami's design takes inspiration from roofs, the most common

architectural feature used around the world. The design of the 2019 Serpentine Pavilion is made by arranging slates to create a single canopy roof that appears to emerge from the ground of the surrounding park. Within, the interior of the Pavilion is an enclosed cave-like space, a refuge for contemplation. For Ishigami, the Pavilion articulates his 'free space' philosophy in which he seeks harmony between man-made structures and those that already exist in nature. Cultivating Sacred Space Elizabeth Murray 1997 Linda Greenlaw hadn't been blue-water fishing for ten years, since the great events chronicled in *The Perfect Storm* and *The Hungry Ocean*, when an old friend offered her the captaincy on his boat, Seahawk, for a season of swordfishing. She took the bait, of course, and thus opened a new chapter in a life that had already seen enough adventure for three lifetimes. The Seahawk turns out to be the rustiest of buckets, with sprung, busted, and ancient equipment guaranteed to fail at any critical moment. Life is never dull out on the Grand Banks, and no one is better at capturing the flavor and details of the wild ride that is swordfishing, from the technical complexities of longline fishing and the nuances of reading the weather and waves to the sheer beauty of the open water. The trip is full of surprises, "a bit harder and saltier than I had hoped for," but none more unexpected than when the boat's lines inadvertently drift across the Canadian border and she lands in jail. Seaworthy is about nature -- human and other; about learning what you can control and what you do when fate takes matters out of your control. It's about how a middle-aged woman who sets a high bar for herself copes with challenge and change and frustration, about the struggle to succeed or fail on your own terms, and above all, about learning how to find your true self when you're caught between land and sea.

Kyoto Gardens Judith Clancy 2015-03-10 "Bring the art and beauty of Japan to your garden with inspiration from Kyoto Gardens." —HGTV Gardens Featuring beautiful Japanese garden photography and insightful writing, *Kyoto Gardens* is a labor of love from master photographer Ben Simmons and Kyoto-based writer

Judith Clancy. In their rocks and plants, empty spaces and intimate details—Kyoto's gardens manifest a unique ability to provoke thought and delight in equal measure. These varied landscapes meld the sensuality of nature with the disciplines of cosmology, poetry and meditation. Japanese aristocrats created these gardens to display not just wealth and power, but cultural sensitivity and an appreciation for transcendent beauty. A class of professional gardeners eventually emerged, transforming Japanese landscape design into a formalized art. Today, Kyoto's gardens display an enormous range of forms—from rock gardens display of extreme minimalism and subtle hues, to stroll gardens of luscious proportions and vibrant colors. In *Kyoto Gardens* Simmons' photographs present a fresh and contemporary look at Kyoto's most important gardens. Their beauty is enhanced and humanized by gardeners tending the grounds using the tools of their art. Clancy's graceful text provides historic, aesthetic and cultural context to the Japanese gardens. Combining wonder and rigor, she describes how Kyoto's most beloved gardens remain faithful to their founders' creative spirit and conception. He has created two outstanding private gardens—Heronswood and Windcliff. Both gardens, and the story of how one begat the other, are beautifully celebrated in Hinkley's new book, *Windcliff*. In these pages you will delight in Hinkley's recounting of the creation of his garden, the stories of the plants that fill its space, and in his sage gardening advice. Hinkley's spirited ruminations on the audacity and importance of garden-making—contemplations on the beauty of a sunflower turning its neck from dawn to dusk, the way a plant's scent can spur a memory, and much more—will appeal to the hearts of every gardener. Filled with Claire Takacs's otherworldly photography, *Windcliff* is spectacular for both its physical beauty and the quality of information it contains.
