*A Book of Emblems* Andrea Alciati 2004-07-01 Andrea Alciati's Emblematum Liber was an essential work for every writer, artist and scholar in post-medieval Europe. First published in 1531, this illustrated book was a collection of emblems, each consisting of a motto or proverb, a typically enigmatic illustration, and a short explanation. Most of the emblems had symbolic and moral applications. Scholars depended on Alciati's book to interpret contemporary art and literature, while writers and artists turned to it to invest their work with an understood didactic sense. This new edition of the Emblematum Liber includes the original Latin texts, highly readable English translations, and the illustrations belonging to each of the 212 emblems. The editor's introduction explains both the importance and the cultural contexts of Alciati's book, as well as its innumerable artistic applications. For instance, close study of the emblems reveals--to cite only two examples--why statues of lions are traditionally placed before government buildings, and what underlying political message was conveyed by innumerable equestrian portraits during the Baroque era. The collection includes as an appendix the formerly suppressed emblem, "Adversus Naturam Peccantes," accompanied by a translation of the learned commentary applied to it by Johann Thuilius in 1612. An extensive bibliography points the student to scholarly research specifically dealing with artistic applications of Alciati's emblems. Altogether, this new edition of Alciati's seminal work is an essential tool for modern students of the liberal arts.

*Reading Art: Art for Book Lovers* David Trigg 2018-06-01 A celebration of artworks featuring books and readers from throughout history, for the delight of art lovers and bibliophiles As every book tells a story, every book in art is part of an intriguing, engaging, and relatable image. Books are depicted as indicators of intellect in portraits, as symbols of piety in religious paintings, as subjects in still lifes, and as the raw material for contemporary installations. Reading Art spotlights artworks from museums and collections around the globe, creating a gorgeous, inspiring homage to both the written word and to its pivotal role in the visual world.
**Rococo** Victoria Charles 2014-05-10 Deriving from the French word rocaille, in reference to the curved forms of shellfish, and the Italian barocco, the French created the term 'Rococo'. Appearing at the beginning of the 18th century, it rapidly spread to the whole of Europe. Extravagant and light, Rococo responded perfectly to the spontaneity of the aristocracy of the time. In many aspects, this art was linked to its predecessor, Baroque, and it is thus also referred to as late Baroque style. While artists such as Tiepolo, Boucher and Reynolds carried the style to its apogee, the movement was often condemned for its superficiality. In the second half of the 18th century, Rococo began its decline. At the end of the century, facing the advent of Neoclassicism, it was plunged into obscurity. It had to wait nearly a century before art historians could restore it to the radiance of its golden age, which is rediscovered in this work by Klaus H. Carl and Victoria Charles.

**Tintoretto in Venice. A Guide. Ediz. a Colori** Thomas Dalla Costa 2019-02-19 Unlike the other two master Renaissance painters associated with Venice, Titian and Veronese, Tintoretto (1519-94) alone was born in Venice and he left his mark there more than either artist. His paintings can still be found everywhere in the city: not only in museums, but as part of the original decorative cycles in public buildings such as the Scuola Grande di San Rocco, the Doge's Palace and the Liberia Marciana, and serving as altarpieces or chapel decorations in Venetian churches. Over one hundred and twenty of Tintoretto's breathtaking paintings spill out of the pages, divided into sections that correspond to the Venetian Sestieri or districts. Each painting is accompanied by entries written by an international team of art historians covering major issues and placing them in their artistic and cultural context.

**Correggio and Parmigianino** David Ekserdjian 2016 The exhibition aims to allow visitors to avail themselves of a selection of masterpieces from some of the world's leading museums to compare and contrast the artistic careers of two of the greatest luminaries of the Italian Renaissance -- Antonio Allegri known as Correggio (1489-1534) and Francesco Mazzola known as Parmigianino (1503-40). The formidable talent of these two artists alone placed the city of Parma in the early 16th century on an equal footing with the peninsula's other great art capitals, Rome, Florence and Venice. Correggio only travelled to Parma when he was already at the height of his career, in the late 1510s, but he was to remain in the city for the rest of his life. Some twenty of his paintings, covering his entire career, have been selected to underscore the extraordinary emotive force and expressive range that the artist put not only into his religious works but also into his mythological paintings, which were to have such a huge impact on later artists, ranging from the Carracci brothers to Watteau and even to Picasso. The exhibition 'Correggio e Parmigianino. Arte a Parma nel Ciquecento' ('Correggio and Parmigianino. Art in Parma during the 16th century') hosts such unquestioned masterpieces as the Barrymore Madonna from the National Gallery of Art in Washington, the Portrait of a Lady from the State Hermitage Museum in St. Petersburg, the Martyrdom of Four Saints from the Galleria Nazionale in Parma, the Noli Me Tangere from the Museo del Prado in Madrid, the School of Love from the National Gallery in London and the Danaë from Rome's Galleria Borghese. Exhibition: Scuderie del Quirinale, Rome, Italy (12.03.-26.06.2016).

**The Complaint of Peace** Desiderius Erasmus 1946 Desiderius Erasmus was a very human man. A humanist, who was no more humane than the rest of the wits and cynics of his time, there was in him a plenty of human weaknesses and uglinesses. Nevertheless he does strike occasionally a note that is genuinely human, universally true, accordant with all the race of men. And this is eminently so of the "Complaint of Peace." The complaints which he puts in the mouth of Peace might have come from the lips of Divae Paris with as much verisimilitude as they did when Erasmus echoed them many centuries ago.
